**Water-soluble NPK fertiliser with micronutrients and plant biostimulant**  
**Grades: Universal 18-18-18+3MgO+TE+stim,**  
**Universal 19-19-19+TE+stim, Universal 20-20-20+TE+stim**

UNIVERSAL is excellent the balanced water-soluble fertiliser with micronutrients and plant growth stimulator were developed for complex plant feeding at all growth stages. It ensures correct development of plants throughout entire vegetation period. Plant growth stimulator in the fertiliser stimulate protein and chlorophyll synthesis in crops, support metabolic processes, and also increase the resistance of crops to disease and stress factors (drought, water logging, damage caused by diseases and pests, etc.). The product is made from ecologically clean raw materials and contains no sodium, chlorine and heavy metals. The fertilizer quickly dissolves in water. It is intended to use in greenhouses, open field and foliar application.
